ABOUT THE ORGANIZATION

Action Unity Lanka (AU Lanka) is a Non-Profitable and Non-Governmental Organization having its Head office in Batticaloa and operating since 2011 for the development and well-being of children, youths and their families. At its inception, the Organization was aptly named "Vavunathivu Development Organization" as the operation was only limited to Manmunai West DS division. It was established to implement the child sponsorship program of ChildFund Sri Lanka in the target location. We were lucky to have the great assistance from ChildFund New Zealand to have a dedicated child sponsorship program in the area. The Organization was initially registered under Social Service Department and then was registered with the Registrar of Companies and the NGO secretariat during the year 2012.

Since 2016 we have adopted the life stage program approach with a clear roadmap and program directions to drive the organization. The organization started to grow gradually with the guidance and technical support of ChildFund. The support received from all the Government stakeholders has also worked to create clear and strong path. At the helm we are guided by a powerful and highly professional Board of Directors. Having an experienced pool of staff is also another strength for our Organization. We have well defined Organizational structure to cater to the needs of the Organization and to reach out the most vulnerable people in the country for their bright future. Our Organization is also powered by structured policies and procedures.

In late 2019 a strategic decision was taken to change the organizations name, and so 'Action Unity Lanka (Guarantee) Limited was registered. The thought behind this decision was that the old name could cause some to feel that we are a small time local outfit and not working on a national scale. Our focus and outlook has not changed but the new name has had a positive impact. We have made steps to expand our programs to other parts of Sri Lanka, especially in the Eastern and Northern regions. We have now opened operations in the Mullaitivu District which is situated in the North of the country, and operation there are going full speed ahead. From 1st of July 2020, Action Unity Lanka is extending our project implementation areas to Mullaitivu district. All our programs focus on deprived, excluded and vulnerable communities especially the children and youths.

With a proud history and a clear focus on current trends and needs, as well as having a well-established funding Partner like ChildFund, we look forward to seeing AU Lanka keep progressing and achieving more milestones in the future years. AU Lanka's comprehensive programs includes Child Protection, Psychosocial, Health, ECCD, Education, Nutrition, Water and Sanitation, Emergency Response, ECO-DRR and Livelihood interventions that sustainably protect, nurture and develop children and youths. We have also been able to get few grant projects which were funded by USAID-SCORE to expand our services to more Districts.
